# CARLOS RIVAS

**Senior Frontend Developer | Software Engineer**

Santiago, Chile | +56 9 5663 7150

Email: ridge.cirque6293@eagereverest.com | linkedin.com/in/rivas-carlos

## Professional Summary

Senior Software Engineer specializing in frontend development, with 9+ years of experience building web and mobile applications. Experience with React and TypeScript across digital advertising, access and licensing management, and financial services products. Contributions include reusable components, accessibility improvements, and production support, complemented by full stack development with PHP, REST API integration, and occasional Java backend work.

## Technical Skills

**Frontend:** React, TypeScript, JavaScript, React Native, SCSS/BEM.

**Components and quality:** Storybook, React Testing Library, WCAG accessibility, feature flags.

**Backend and integration:** Node.js, Express, REST APIs; earlier PHP experience and Java backend support.

## Professional Experience

### Mercado Libre | Senior Software Engineer

Santiago, Chile | March 2025 – Present

- Contributed to Sponsor Follow, a new frontend application for the advertising Demand Side Platform (DSP), from initial setup through production rollout.
- Contributed to server-side solution design and REST API integration, using the Andes Design System and feature flags for progressive rollouts.
- Developed components for a reusable library shared by more than 4 applications, including alpha releases and technical documentation in Storybook.
- Implemented Video Ads, coupons, budgets with integrated bonuses, placement previews, and campaign metrics dashboards.
- Coordinated changes across frontend repositories, routing rules, and analytics tracking definitions with Melidata.
- Helped reduce technical debt by removing obsolete dependencies, updating transitive packages, and adding git hooks to reinforce code quality.

### Globant | Software Engineer

Santiago, Chile | March 2021 – March 2025

- Autodesk BIM 360 / Construction Cloud: built React features for user management, roles, permissions, account and project access, and product and subscription assignment.
- Led development of a participant management and bulk invitation component supporting multiple project licensing levels; handled technical planning and served as a point of contact for specific features.
- Provided on-call and escalation support for Autodesk incidents affecting users and critical support tickets.
- AFP Provida: led frontend development of the mobile application using React Native.
- Box: implemented WCAG accessibility improvements in the React web application.

**SEIDOR Chile | Software Developer**

Santiago, Chile | April 2019 – March 2021

- Built React interfaces and features for an internal oral trial scheduling system used by the Judiciary of Chile.
- Worked with project teams and end users to gather requirements and provided occasional Java backend support for frontend integration.

**Option SPA | Frontend Developer**

Santiago, Chile | February 2018 – April 2019

- Sky Airline: contributed to navigation and code stability improvements in the React Native mobile application.
- Entel Marketplace: implemented the Vue.js back-office for product and order management.
- QubitTV: continued development of the Backbone.js Smart TV application, working on compatibility across manufacturers through a shared codebase.

**Nostrum Mobility Ltda. | Full Stack Developer**

Santiago, Chile | October 2017 – February 2018

- Led full stack development of a personal transportation application, using Angular 2 for the frontend and PHP with Slim Framework for the backend.
- Integrated external APIs for real-time geolocation and vehicle tracking.

**Grupo Hostienda | Frontend Developer**

Puerto Ordaz, Venezuela | March 2017 – September 2017

- Developed and maintained an e-commerce platform and its back-office using PHP with OpenCart and JavaScript.

**Imagina Colombia | Frontend Developer**

Tolima, Colombia | November 2016 – March 2017

- Contributed to 4 web applications using PHP (Laravel) and JavaScript, covering healthcare, parking reservations, digital services, and product catalogs.
